Attention Licensed Plumber

Only a licensed plumber or other qualified agency or individual may introduce gas to this building.

Per the National Fuel Gas Code and Local Regulation, the licensed plumber is responsible for performing a pressure test before the gas is turned on.

- WG has installed a 2-Psig meter bar regulator assembly. If this is incorrect, do not introduce gas to this building and call WG at 703-750-1000.
- WG has installed a standard pressure meter and regulator. If this is incorrect, do not introduce gas to this building and call WG at 703-750-1000. Meter set must remain plumb.
